

Dermagen CS

Cell Vitalizing Preparation

Exclusive Skincare with Vital Cell Induction

PRODUCT FEATURES AND APPLICATION

The world class Dermagen-CS is a highly advanced cosmeceutical skincare line that incorporates a unique natural based input called Vital Cell Induction that will dynamically enliven your skin like no other anti-aging product available today. This is synergistically formulated with a cutting edge nutraceutical package that is collectively designed to promote and support a healthy rejuvenation of your skin.

- Reduce Collagen and Elastin Breakdown - Metalloproteinase Inhibitors
- Increase Collagen, Elastin and Hyaluronic Acid Endogenous Production
- Reduce Inflammation - COX Inhibitors
- Moisture Enhancement & Stratum Corneum (Skin) Barrier Function
- Skin Cell Remodeling and Regeneration
- Cutaneous Photoprotection Support with Polyphenols

Within the first few days of using our breakthrough Dermagen Cell Vitalizing Preparation you will notice that any former area of dry patchy skin is now gone. The innovation enlivens any dry areas to a fresh vibrant look that is then seen across the entire complexion. After applying your makeup you will now find that you will no longer need to concern yourself with the prospect of having to do an afternoon touchup. You will come to see the fresh vitalized look to your complexion all day and even long into the evening.

With your continued use Cell Vitalizing Preparation goes far beyond any skin crème you have ever used before. The raising of your skin tissue vitality gives you... *a true skin rejuvenation...* in the form of an attractive looking natural glow that is analogous to the appearance of baby skin. Your skin also becomes inordinately soft to the touch. Pigmentation issues start to resolve into an even-toned younger look. As you continue to use this product you will experience the world-class wrinkle and line amelioration that you have been searching for but couldn't actually find... until now. Our proprietary natural based innovation called "Vital Cell Induction" will continue to work for you day after day to help keep your skin looking its absolute best. The innovation is a powerful tool to help your complexion look great with none of the risk of an invasive procedure. However, should you undergo an invasive surgical procedure you will definitely want to have our Cell Vitalizing Preparation to help you heal faster from the procedure as well as to continue providing you with that noticeable fresh vitalized look to the complexion.

Application: Using the Dermagen product line is simple and easy to use. The formulas are natural based and always gentle for your complexion.

Cell Vitalizing Preparation – Vitalizing preparation is versatile. After cleansing apply as your overnight skin treatment. In the morning after cleansing you can sparingly reapply as a base for your foundation providing you with a-round-the-clock rejuvenation regime! **Serum** – a very rich concentrated formula to apply at night to areas of extra concern. **Elixir Vitae Body Butter** – simply apply anytime day or night to regenerate all those areas on your body of concern. The powerful skin rejuvenation will soften and normalize even stubborn elbow and foot areas if applied routinely. **Bio Gentle Cleanser** – an excellent natural based compliment for cleansing. **Anti-Aging for Hands** – used to achieve and maintain youthful looking hands to complete the circle of beauty that is achieved with Dermagen.
